CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

All the programmes taught in the college are affiliated to Adikavi Nannaya University, Rajahmahendravaram and hence, all departments are required to implement the syllabus prescribed by the Adikavi Nannaya University. The timetable committee headed by the principal and senior Faculty Members draws up a detailed timetable which efficiently deploys the units of time for academic and co-curricular purposes as for example, theory, practical, tutorial, ICT, life-skill, value education and add-on classes thereby ensuring a balance between the different types of engagement a student is expected to participate in. The departments strive for effective curriculum delivery through a combination of time-tested and innovative methods: beginning with an entry point assessment of the student's aptitude and expectations relating to the course and proceeding according to a set of teaching plans based on an academic calendar detailed enough to cover the available timeframe, yet flexible enough to permit changes. The teaching plans consist of detailed apportioning of the syllabus among all the faculties of a particular department. The apportioning is done democratically through discussion and deliberations among faculties in departmental meetings. Faculty members take utmost care to complete the syllabus in time. Tutorials/ projects, class tests and internal assessments comprise the formal evaluative processes, but students are encouraged to meet faculty beyond classroom hours for doubt-clearing and curricular discussions. Extra hours are devoted to taking remedial classes after completion of internal examinations to bolster student's preparedness before university examinations. Periodic meetings of IQAC take stock of the progress of the teaching learning, among other things and meetings of the Department with Principal and parent teacher meetings are other forums where progress of the delivery of curriculum are regularly monitored and necessary course corrections are initiated. The

college is well equipped with smart class rooms, virtual class rooms, audiovisual and other ICT facilities which are extensively used by teachers in day to day teaching to make delivery of the curriculum attractive to students. Interactive teaching is promoted through student's participation in group discussion, quizzes and seminars. Special lectures delivered by eminent scholars on topic related to the curriculum further intensify students learning experience.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

A value-based education saturated with progressive educational thoughts of Mahatma Gandhi is integrated with the curriculum of the affiliating university. The staff and students come from diverse demographic backgroun with a range of varying capabilities and orientation. Thus an effort to inculcate a value of togetherness is at the very core and at the same time gives space to each and every stakeholder to use their potential to its fullest to ultimately create a peaceful society. This in itself explicates the vision of the institution with its unique sense of outward freedom to develop discipline within. The strong

bonding with students has encouraged third generation students to opt for the college as its first preference. Students coming from all the sections of the society find an equitable place for themselves which culminates in a strengthened being with a positive vision. This bonding also finds its roots between the stakeholders and the campus. The entire campus, which is ecofriendly, is a collective effort of the management staff and students aware of the current environmental crisis and makes every effort to construct a healthy and happy community at large. Waste segregation, waste management, water and energy conservation, plantation drives are some of the measures passionately taken up by one and all. The scope of the institution is to reduce and eliminate social, economic, cultural and other types of exclusion of human beings through the spread of information and awareness on the subject. To achieve educational innovation with a new type of social engagement. To integrate curriculum with outreach. The solidarity within the campus finds its sublets in various activities outside the campus in the form of community engagement which in turn lead to social transformation, a distinct need of the day. Along with NGO's, voluntary organizations and individuals the college was able to reach out to distressed people affected by floods, adopted schools, offered help disabled, spoke to boys on issues related to women and many such activities. Organising Anti-Ragging meetings to create friendliness between students. Charity in the form of clothes, food and donation found a rich contribution from among the students. The never ending, relentless effort to enhance human capabilities in and around to promote peaceful and inclusive society of this college becomes its distinctiveness and establishes the vision of the college as an inclusive institution.
